Standard PC/Laptop Options

No extra charge to the customer

WaTech supplies one workstation per supported user. That computer will remain in circulation for four years from the purchase date. A workstation consists of (as specified in this standards list): 1 computer, 1 mouse, 1 keyboard, 2 monitors, 1 speaker bar, and all needed cabling.

- If the standard equipment does not fit your needs please submit a ticket to the Support Center.
- Any additional equipment needed can be purchased through your agency's purchasing process.
- Prices are included for informational purposes only and are subject to change without notice.
